SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The Acquisition Management Systems and Data Requirements Control List (AMSDDL) is a list of data requirements used in Department of Defense contracts. Information collection requests are contained in DoD contract actions for supplies, services, hardware, and software. This information is collected and used by DoD and its component Services and Agencies to support the design, test, manufacture, training, operation, maintenance, and logistical support of procured items, including weapons systems. The collection of such data is essential to accomplishing the assigned mission of the Department of Defense. Failure to collect this information or to collect this information less frequently, would have a detrimental effect on the DoD acquisition programs and the National Security.
